# burner games

## Burner Games
## Advanced training and team event in one

### What?

The Burner Games offer simple, imaginative and intense gaming experiences. They promote fitness as well as self-confidence and team spirit - and get even the biggest 'couch potato' off the sofa. The games are easy to run, and both stronger and weaker players are always involved. The focus is always on the joy of movement and play.

### Who are they for?

The Burner Games inspire everyone to get involved. That's why they're ideal for organising an active halfday of professional development for a subject group or the whole school team. Such a team experience fosters a sense of togetherness and creates fond memories, as well as providing practical insights for use in the classroom. Individual focus available on request.

### Prerequisites:

- A love of games and sport
- creativity

no prior knowledge required.

### Organisation/Support:

Courses can often be organised or funded via cantonal bodies (e.g. University of Teacher Education, Sports Authority, Association, specialist centre).
